Contents

Preface vii

Part 1: New Perspectives on Teaching and Learning

1. Contributions of Research to Practice: Applying Findings, Methods, and Perspectives 1
   Edward A. Silver, University of Pittsburgh, Pittsburgh, Pennsylvania

2. The Importance of Social Interaction in Children's Construction of Mathematical Knowledge 12
   Erna Yackel, Purdue University, Calumet, Indiana
   Paul Cobb, Purdue University, West Lafayette, Indiana
   Terry Wood, Purdue University, West Lafayette, Indiana
   Grayson Wheatley, Florida State University, Tallahassee, Florida
   Graceann Merkel, Klondike Elementary School, West Lafayette, Indiana

3. Constructivism and Beginning Arithmetic (K–2) 22
   Constance Kamii, University of Alabama, Birmingham, Alabama

4. The Role of Routine Procedures in the Development of Mathematical Competence 31
   James Hiebert, University of Delaware, Newark, Delaware

5. Adaptive Mathematics Teaching 41
   Leslie P. Steffe, University of Georgia, Athens, Georgia

Part 2: Effective Models and Methods for Teaching and Learning

6. Small-Group Cooperative Learning in Mathematics 52
   Neil Davidson, University of Maryland, College Park, Maryland

7. An Eclectic Model for Teaching Elementary School Mathematics .. 62
Thomas E. Rowan, Montgomery County Public Schools, Rockville, Maryland
Nancy D. Cetorelli, Stratford Public Schools, Stratford, Connecticut

8. Mathematics as Communication: Using a Language-Experience Approach in the Elementary Grades 69
Frances R. Curcio, Queens College-CUNY, Flushing, New York

9. Effective Mathematics Teaching: One Perspective..... 76
Timothy D. Kanold, Adlai E. Stevenson High School, Prairie View, Illinois

10. Beyond Problem Solving: Problem Posing 82
Barbara Moses, Education Development Center, Inc., Newton, Massachusetts
Elizabeth Bjork, Education Development Center, Inc., Newton, Massachusetts
E. Paul Goldenberg, Education Development Center, Inc., Newton, Massachusetts

11. Writing as a Tool for Teaching Mathematics: The Silent Revolution..... 92
Aggie Azzolino, Middlesex County College, Edison, New Jersey

12. Motivation: An Essential Component of Mathematics Instruction 101
Emma E. Holmes, California State University, Fullerton, California

Part 3: The Role of Assessment in Teaching and Learning

13. Assessment in Mathematics Classrooms, K–8.....108
Norman Webb, University of Wisconsin, Madison, Wisconsin
Diane Briars, Pittsburgh Public Schools, Pittsburgh, Pennsylvania

14. Changes in Mathematics Teaching Call for Assessment Alternatives.....118
David J. Clarke, Institute of Catholic Education, Oakleigh, Victoria, Australia
Doug M. Clarke, Institute of Catholic Education, Oakleigh, Victoria, Australia
Charles J. Lovitt, Ministry of Education, Victoria, Australia

Part 4: Cultural Factors in Teaching and Learning

15. Mathematics for All Americans 130
Lynn Arthur Steen, Saint Olaf College, Northfield, Minnesota

16. The Challenges of a Changing World for Mathematics Education ..135
Walter G. Secada, University of Wisconsin, Madison, Wisconsin

17. Teaching Mathematics: A Feminist Perspective.....144
Suzanne K. Damarin, Ohio State University, Columbus, Ohio

18. African-American Students and the Promise of the *Curriculum and Evaluation Standards*.....152
Lee V. Stiff, North Carolina State University, Raleigh, North Carolina

19. Increasing the Achievement and Participation of Language Minority Students in Mathematics Education 159
Gilbert Cuevas, University of Miami, Miami, Florida

20. Cultural Power and the Defining of School Mathematics: A Case Study.....166
Brian F. Donovan, Phillip Institute of Technology, Victoria, Australia

Part 5: Contextual Factors in Teaching and Learning

21. The Invisible Hand Operating in Mathematics Instruction: Students' Conceptions and Expectations 174
Raffaella Borasi, University of Rochester, Rochester, New York

22. Contextualization and Mathematics for All.....183
Claude Janvier, University of Quebec, Montreal, Canada

Part 6: Implications of Technology for Teaching and Learning

23. Computer-enhanced Algebra: New Roles and Challenges for Teachers and Students 194
M. Kathleen Heid, Pennsylvania State University, University Park, Pennsylvania
Charlene Sheets, University of Maryland, College Park, Maryland
Mary Ann Matras, East Stroudsburg University, East Stroudsburg, Pennsylvania

24. The Impact of Graphing Calculators on the Teaching and Learning of Mathematics.....205
Gloria Barrett, North Carolina School of Science and Mathematics, Durham, North Carolina
John Goebel, North Carolina School of Science and Mathematics, Durham, North Carolina

25. Enhancing Mathematics Teaching and Learning through Technology 212
Franklin Demana, Ohio State University, Columbus, Ohio
Bert K. Waits, Ohio State University, Columbus, Ohio

26. Teaching Mathematics with a Vision: Integrating Computers into Instruction 223
Marc Swadener, University of Colorado, Boulder, Colorado
William Blubaugh, University of Northern Colorado, Greeley, Colorado

Part 7: Professionalism and Its Implications for Teaching and Learning

27. Mathematics Teachers Reconceptualizing Their Roles 229
Charles Lovitt, Ministry of Education, Victoria, Australia
Max Stephens, Ministry of Education, Victoria, Australia
Doug Clarke, Institute of Catholic Education, Oakleigh, Victoria, Australia
Thomas A. Romberg, University of Wisconsin, Madison, Wisconsin

28. Professionals in a Changing Profession 237
Mark Driscoll, Education Development Center, Newton, Massachusetts
Brian Lord, Education Development Center, Newton, Massachusetts

Index 246
